CLAIMS

What is claimed is:

1 1. A method for providing voice-enabled driving directions, comprising the steps of:

2 (a) receiving an utterance representative of a flight identifier;

3 (b) transcribing the utterance utilizing a speech recognition process; and

4 (c) querying a database for generating flight information based on the flight

5   identifier.

1 2. The method as recited in claim 1, wherein the utterance is received utilizing a

2   network.

1 3. The method as recited in claim 1, wherein the network includes the Internet.

1 4. The method as recited in claim 1, wherein the flight information includes a time

2   of arrival of the flight.

1 5. The method as recited in claim 1, wherein the flight identifier includes a flight

2   number.

1 6. A computer program product for providing voice-enabled driving directions,

2   comprising:

3 (a) computer code for receiving an utterance representative of a flight identifier;

4 (b) computer code for transcribing the utterance utilizing a speech recognition

5   process; and

6 (c) computer code for querying a database for generating flight information based on

7   the flight identifier.

1   7.   The computer program product as recited in claim 6, wherein the utterance is
2   received utilizing a network.

1   8.   The computer program product as recited in claim 6, wherein the network
2   includes the Internet.

1   9.   The computer program product as recited in claim 6, wherein the flight
2   information includes a time of arrival of the flight.

1   10.   The computer program product as recited in claim 6, wherein the flight identifier
2   includes a flight number.

1   11.   A system for providing voice-enabled driving directions, comprising:
2   (a)   logic for receiving an utterance representative of a flight identifier;
3   (b)   logic for transcribing the utterance utilizing a speech recognition process; and
4   (c)   logic for querying a database for generating flight information based on the flight
5   identifier.

1   12.   The system as recited in claim 11, wherein the utterance is received utilizing a
2   network.

1   13.   The system as recited in claim 11, wherein the network includes the Internet.

1   14.   The system as recited in claim 11, wherein the flight information includes a time
2   of arrival of the flight.

1   15.   The system as recited in claim 11, wherein the flight identifier includes a flight
2   number.
